PRESCRIBING REGULATIONS GOVERNING THE PAYMENT OF BASIC ALLOWANCES FOR QUARTERS

By virtue of and pursuant to the authority vested in me by section 302 of the Career Compensation Act of 1949, approved October 12, 1949 (Public Law 351, 81st Congress), and as President of the United States and Commander in Chief of the armed forces of the United States, I hereby prescribe the following regulations governing the payment of basic allowances for quarters to members of the uniformed services.

1. *Definitions.* As used in these regulations or regulations prescribed pursuant hereto:

(a) The term "entitled to receive basic pay" shall apply to a member while on the active list or while required to perform duty in accordance with law for which he is entitled to basic pay: *Provided,* that such term shall not apply to any member while absent from duty under conditions which, under laws governing the particular service concerned, would prevent him from receiving full basic pay.

(b) The term "field duty" shall mean service by a member under orders with troops operating against an enemy, actual or potential, or service with troops on maneuvers, war games, field exercises, or similar types of operations.

(c) The term "sea duty" shall mean service performed by either officer or enlisted members under conditions for which "sea duty" pay is payable to enlisted members in accordance with section 206 of the said Career Compensation Act of 1949, and regulations issued thereunder.

(d) The term "permanent station" shall mean the place on shore where a member is assigned to duty, or the home yard or the home port of a ship in which a member is required to perform duty, under orders in each case which do not in terms provide for the termination thereof; and any station on shore or any receiving ship where a member is assigned and in fact occupies, with his dependents, if any, quarters under the jurisdiction of any of the uniformed services shall also be deemed during such occupancy to be his permanent station: *Provided,* that in the case of members of the National Guard, the Air National Guard or Reserve components of any of the uniformed services on active duty for training, the place where the training duty is being performed shall be deemed to be the permanent station of such members for the purposes of these regulations.

2. Except as otherwise by statute heretofore or hereafter provided, a member shall be entitled to payment of basic allowances for quarters, in accordance with these regulations and any regulations prescribed pursuant hereto, during such time or times as he is entitled to receive basic pay.

3. Any quarters or housing facilities under the jurisdiction of any of the uniformed services in fact occupied without payment of rental charges (a) by a member and his dependents, or (b) at his permanent station by a member without dependents, or (c) by the dependents of a member on field duty or on sea duty or on duty at a station where adequate quarters are not available for his dependents, shall be deemed to have been assigned to such member as appropriate and adequate quarters, and no basic allowance for quarters shall accrue to such member under such circumstances unless the occupancy is because of a social visit of a temporary nature.

4. When adequate quarters for his dependents are not available for assignment at his permanent station to a member with dependents, he may occupy not more than one room and a bath at such station, without affecting his right to receive payment of basic allowances for quarters, if permitted or required personally to occupy quarters at such station.

5. A member away from his permanent station may occupy not more than one room and a bath at his temporary post or station without affecting his right to receive payment of basic allowances for quarters, or to assignment of quarters at his permanent station.

6. The Secretaries concerned (within the meaning of section 102 (f) of the said Career Compensation Act of 1949), with respect to personnel of the uniformed services within their respective departments and agency, are hereby authorized to prescribe such supplementary regulations not inconsistent herewith as they may deem necessary or desirable for carrying out these

SAFETY BELTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 11th day of January 1951.

Currently effective Civil Air Regulations require that aircraft manufactured after January 1, 1951, shall be equipped with safety belts approved on the basis

of TSO C–22a in accordance with the amendments adopted by the Board on December 29, 1949.

The Board recognizes that current demands upon our domestic economy are resulting in shortages of materials and that requirements may necessitate restraints on their civilian use. Accordingly, this regulation is intended to permit aircraft manufacturers to utilize safety belts which comply with the provisions of the Civil Air Regulations effective prior to January 1, 1951, whenever, as at present, shortages in the supply of safety belts which comply with Technical Standard Order C–22a or of safety belts which meet substantially equivalent standards, particularly those meeting military standards, would seriously delay the delivery of newly manufactured aircraft. It should be noted that this regulation is not intended to permit the continued manufacture for civilian use of safety belts which do not comply with TSO C–22a.

For the reasons set forth above, notice and public procedure hereon are impracticable and contrary to public interest, and the Board finds that good cause exists for making this Special Civil Air Regulation effective immediately.

In consideration of the foregoing the Civil Aeronautics Board hereby makes and promulgates a Special Civil Air Regulation, effective immediately, to read as follows:

Contrary provisions of the Civil Air Regulations notwithstanding, the Administrator shall authorize the installation in newly manufactured aircraft of safety belts which comply with the provisions of the Civil Air Regulations effective prior to January 1, 1951, where, because of shortages, there is no available supply of safety belts which comply with Technical Standard Order C–22a or of safety belts which are substantially equivalent, particularly those meeting military standards. Each safety belt assembly installed for use in civilian aircraft shall be marked on both ends with its date of manufacture.

This regulation shall terminate December 31, 1951, unless sooner superseded or rescinded.

Secretary.

[Docket No. 9775]

INTERNATIONAL REGISTRATION WITH EXTRAORDINARY ADMINISTRATIVE RADIO CONFERENCE OF INTERNATIONAL TELECOMMUNICATION UNION

LIST OF BAND ARRANGEMENTS

JANUARY 4, 1951.

In the matter of list of assignments in the bands below 27,500 kc. and especially those in the band 2000–3500 kc. to be recommended for International Registration in connection with the Extraordinary Administrative Radio Conference of the International Telecommunication Union; Docket No. 9775.

On August 25, 1950, the Commission released a Public Notice in Docket 9775 (Mimeo 53477) which was intended to advise interested parties concerning progress being made and of the further steps contemplated in order to bring into force the new international table of frequency allocations for the spectrum 2000–3500 kc. based upon the provisions of the Final Acts of the Atlantic City Telecommunication and Radio Conferences (1947), of the FIAR Conference, (Washington, 1949), and of Region 2 (ITU) (Washington, 1949).[1] Appendices of that Public Notice contained lists summarizing the manner in which the non-Government assignments contained in the complete United States list (List A) were proposed to be made. The Commission requested all interested parties to comment upon List A or the appended non-Government lists not later than October 9, 1950. Comments were received from:

Aeronautical Radio Inc., (ARINC)
American Telephone and Telegraph Co. (AT&T).
Lake Carriers' Association.
Lorain County Radio Corporation.
National Federation of American Shipping.
National Broadcasting Company (NBC).
RCA Communications, Inc. (RCA).
Radiomarine Corporation of America (RMCA).
Tropical Radio, Inc. (TRT).

[1] Appendix A, Part 2 of FCC Rules, lists pertinent radio treaties and information as to how copies may be obtained.

A summary of the comments are as follows:

A. Aeronautical Radio Inc. (Aeronautical fixed):

(1) Listed the basic frequency requirements of the Aeronautical Fixed Service in the Caribbean area.

(2) Requested changes in the list resulting from the recent transfer of certain operations at Miami, Florida, from the Civil Aeronautics Administration to non-Government licensees and the transfer of the primary Texas operation from Brownsville to Houston, Texas.

(3) Called attention to several listings expected to cause co-channel and adjacent channel interference to the aeronautical fixed operations proposed.

(4) Requested the opportunity to be heard in the event "List A" could not be modified to satisfy the criteria set forth.

B. AT&T (Marine Telephone):

(1) Believes insufficient frequencies have been provided for the service.

(2) Requests 2110 kc. be retained because of large number of assignments now outstanding on that frequency.

(3) Wants daytime protection from remote pickup within 700 mile radius of all coastal harbor stations.

(4) Wants minimum of 32 kc. separation between coastal harbor frequencies and between ship frequencies in the same area.

(5) Recommends all ship frequencies be adjacent to or in existing ship block and all coastal harbor frequencies be adjacent to or in existing coastal harbor block.

(6) Desires greater frequency separation between certain coast and ship assignments.

(7) Desires greater distance separation on certain co-channel assignments.

(8) Recommends a minimum separation of 42.5 kc between ship and shore frequencies in a given pair.

C. Lake Carriers Association (Marine Telephone): On the frequencies 2158, 2550, 2118 and 2514 kc., requests no sharing. Expresses concern over proposed sharing 2003 kc. by San Francisco with Great Lakes.

D. Lorain County Radio, Inc. (Marine Telephone):

(1) Objects to sharing of 2003 kc. by San Francisco with Great Lakes.

(2) Objects to night time sharing by Tampa with Great Lakes.

(3) Objects to night time sharing by Miami with Great Lakes.

(4) Suggests that Tampa-Great Lakes-Eureka pair 2158–2550 kc. be limited to day only at Tampa and Eureka on account of increase of Great Lakes traffic. Proposes 2390-2458 kc. pair be used full time at Tampa.

(5) Suggests that Miami-Great Lakes pair 2118–2514 kc. be limited to day only at Miami and 3280–3212.5 kc. Miami pair be used full time.

E. National Federation of American Shipping (Marine Services):

(1) Favors 2 Mc. telegraphy and telephony plans.

(2) Recommends expanded use of telephony in ship bands at foreign ports.

(3) Supports 2830 kc. for intership use. Recommends Canadian use of 2830 kc. in North Atlantic area.

F. NBC Remote Pickup):

(1) Believes frequency separations provided are inadequate.

(2) Objects to limitations on hours of usage.

G. RCAC (International Fixed Public Service):

(1) Suggests 3257.5 kc as a replacement for 3327.5 kc. at New York since interference with Atlantic City Region 1 assignments is believed certain.

(2) Agrees with the plan in general.

(3) Urges the consideration of sharing for future needs as they arise.

H. RMCA (Marine Services):

(1) Telegraph portion of the plan is acceptable.

(2) Marine telephone plan is generally acceptable except for need for greater separation between legs of a given ship-shore pair. Believes that a minimum separation of 10 percent is necessary.

(3) Believes that telephone frequencies provided above 3 Mc. should be moved below 3 Mc.

I. Tropical Radio Telegraph Co. (International Fixed Public Service):

(1) Points out that replacement frequencies were not provided for 2264 and 3280 kc. frequencies. Replacement of the latter frequency is important for satisfactory operation of the Miami to Nassau circuit.

(2) Requests that an exclusive frequency in the band 3000–3500 kc. be assigned since 2 Mc. frequency would be too low on account of high noise level and a 4 Mc. frequency would be too high during low sunspot periods. The hours of use necessary are 9:00 p. m. to 6:00 a. m., e. s. t.

The following is a list of changes and revisions made in the Appendices and in List A affecting the non-Government services:

A. Maritime Mobile (telephone) Service:

(1) The ship frequency 3280 kc. is deleted at Miami because of the necessity for retention of the existing fixed circuit on this frequency between Miami and Nassau (TRT request). The frequency 2031.5 kc. is added in lieu of 3280 for the ship frequency paired with the 3212.5 coast frequency at Miami. This also assists in meeting the RMCA recommendation to use frequencies below 3000 kc. for the Marine Service and the AT&T recommendations to make new marine assignments as close as possible to the existing ship and coastal harbor station frequency blocks.

(2) The "day only" pairs 2118–2514 kc. are deleted at Boston and Seattle because of objection (AT&T) to insufficient spacing from adjacent pairs (2126–2522 kc.) to be assigned at the same location or same area (Seattle, New York). No workable substitute pairs could be found.

(3) For the same reason as (2) above, New York is deleted from the 2134–2530 kc. pair. No workable substitute pair could be found.

(4) In order that the future assignments in the Los Angeles-San Diego service area be flexible so that assignment can be made to either location as future events may determine, all new pairs now list both locations. Los An-

geles is added to the 2126–2522 and 3255–3222.5 kc. pairs. San Diego is added to the 2206–2595 and 3275–3242.5 kc. pairs.

(5) This also will permit the operation of the new daytime pairs at San Francisco and Eureka to be coordinated in the same manner as the existing operations at these locations if found desirable. Eureka is deleted from the 2158–2558 kc. pair (AT&T request) and added to the 2142–2538 kc. pair in order to overcome the AT&T objection to "splitting pairs".

(6) Because of inadequate provision for a Fixed requirement at New York (RCAC) and on objection (AT&T) to sharing a pair between Boston and New Orleans, 3242.5 kc. is assigned to the Fixed service at New York, and Boston is deleted from the 3322.5–3242.5 kc. pair. In order to provide Boston with more than one pair, New York is deleted from the 3255–3232.5 kc. pair and Boston is added to that pair.

(7) In Appendix 1 the frequencies 3222.5, 3232.5, and 3242.5 kc. were listed as ship telephone frequencies and 3255, 3275 and 3322.5 kc. were listed for coastal harbor frequencies when in fact (as was correctly shown in Appendix 2) the intention was just the reverse. For this reason Appendix 1 has been corrected to show the lower 3 frequencies available for coastal harbor stations and the upper 3 for ship telephone.

(8) After consideration of comments relative to Tampa and Miami sharing with the Great Lakes, (AT&T, Lake Carriers, Lorain County Radio) the use of the 2118–2514 and 2158–2550 kc. pairs at Miami and Tampa have been restricted (footnote 4, Appendix 1 and footnote 2 Appendix 2) today only during the season the Great Lakes are open to shipping.

(9) See Appendix 1 and 2 below for the revised listings.

B. Maritime mobile (coastal telegraph) Service:

(1) Since List A and Appendix 1 were published, certain existing coastal telegraph assignments are no longer required. For this reason, listings at Thomaston, Me., Jupiter, Fla., Beaumont, Texas, Kailua, T. H., and Norfolk, Va., have been deleted from List A and Appendix 1.

(2) Because of the requirement for a substitute ship telephone frequency at Miami and the deleted requirements noted above (1), the frequencies 2028.5, 2030, 2031.5, 2033 and 2034.5 have been deleted as coastal telegraph frequencies and 2031.5 listed for Miami ship telephone.

(3) Because of the frequency deletions noted in (2) above, all listings as previously shown in Appendix 1 have been shifted upward, the lowest coastal telegraph frequency now being 2036 kc.

(4) The Baltimore, Md., and Kent, Washington, locations are added to the new Galveston, Texas, frequency (2063 kc.).

(5) A new requirement (in lieu of the deleted Jupiter, Florida, listing) at Jacksonville, Florida, is added to the New York, N. Y., frequency (2051 kc.).

(6) A new requirement at Lake Charles, La., is added to the Ensenada, P. R., and Alaska frequency (2052.5 kc.). The Kahuku, T. H., requirement has also been added to this frequency.

(7) See the revised Appendix 1 attached hereto for a complete listing of the revised coastal telegraph assignments.

C. Aeronautical (Fixed) Service:

(1) Since List A, Appendix 1 and Appendix 6 were published, certain CAA (Government) operations have been transferred to Aeronautical Radio, Inc. For this reason the lists have been corrected to show aeronautical fixed, Florida, on 2784 kc. as a replacement for 2644 kc. and 3222.5 kc. as a replacement for 3405 kc.

(2) List A is corrected as follows:

2648 kc—changed entry in column 4b to "Caribbean".

2784 kc—removed call WBR and changed coordinates to read 25 49 N, 80 16 W.

2848 kc—changed second "Brownsville" entry to "Houston" in column 4a and coordinates to 29 39 N, 95 16 W and in column 4b changed receiving point to "Caribbean". Deleted WBR from this frequency since ARINC is now handling this traffic.

3222.5 kc—1. Changed Miami Aeronautical Fixed entry to show different coordinates and such other particulars as necessary to show existing non-Government operations now on 3405 kc.; 2. Added U. S. (South Central) Aeronautical Fixed entry.

(3) See revised Appendix 1 and 6 for revised non-Government listings in the Aviation services.

D. Fixed Public Service:

(1) The 3190 kc Puerto Rico listing in Appendix 1 has been added to the revised Appendix 7, the omission of this frequency from the latter appendix having been in error.

(2) Because of the continuing requirement for the Miami and San Juan fixed operations now on 3280 kc and a request that this operation not be deleted (TRT), Florida and Puerto Rico were added to 3280 kc for the fixed service.

(3) Because of probable interference with assignments of Region 1 countries (RCAC) on 3327.5 kc, two new frequencies (for nighttime only) are added for the New York location, 3242.5 kc and 3322.5 kc.

Appendix 3 (Remote Pickup), 4 (Public Safety), 5 (Industrial) and 8 (Fixed and Coast stations in Alaska) are not changed. Appendices 1 through 9 appear below.

The AT&T requested that 2110 kc be retained for ship telephone use on account of the number of ships now equipped for that frequency. The Commission cannot justify the retention of this frequency on the basis of hardship to a group of ships representing a small percentage of the total number of ships licensed for radiotelephone use of medium frequencies. To tie the planning of the frequency list down to such limitations would result in contraction of frequency availability to the Maritime service in this band as well as to the other services. Attempts to satisfy the objections raised by the AT&T by making shifts and changing frequencies with other services proved to be hopeless owing to the extreme congested state of the assignments and owing to the large number of changes which would be necessary.

Considering that the R. T. C. M. 2 Mc. marine telephone recommendations as to additional frequencies for certain ports result in the present situation which is apparently objectionable to the AT&T, it is proposed that certain frequencies be deleted from the plan in order that those remaining may be made more workable and the basic objections of AT&T resolved. While the deletions and changes, as proposed, would provide something less than that recommended by the R. T. C. M., nevertheless it provides for a greatly expanded marine telephone service much more than is presently provided for and at the same time overcomes most of the objections as to frequency separation between frequencies of a duplex pair or between two pairs of frequencies at a given port.

At the present time there are 11 exclusive and 1 shared frequency assigned for broadcast pickup operation between 1600 and 3000 kilocycles. Under the assignment plan proposed herein 3 of these frequencies, between 1600 and 2000 kilocycles (1606, 1622 and 1646 kilocycles) are not involved; 2 frequencies (2150 and 2790 kilocycles) are unchanged, and 1 frequency (2758 kilocycles) is changed only insofar as Alaska stations are involved. The 6 deleted frequencies have been replaced by 10 new frequencies, 7 of which are restricted to daytime operation only. Of these 10 frequencies, 1 (2598 kilocycles) is limited to Alaska only, 7 are limited to the continental United States, and 2 are unrestricted; 1 of the present 12 frequencies (2830 kilocycles) is retained for use in Alaska and Puerto Rico only, but is deleted insofar as continental United States stations are concerned.

RCA, in commenting on behalf of the National Broadcasting Company, Inc. states that the quality and continuity of remote pickup broadcasts will be degraded both by the closer adjacent channel assignments and the daytime only restriction on some of the frequencies. It is difficult to evaluate the overall effect of the proposed adjacent channel operation although it may be assumed that some degradation will result in certain areas due to adjacent channel interference. It is not the purpose of this assignment plan to restrict the bandwidth of emission to ± 2 kilocycles and List A shows 10A3 emission for remote pickup stations. As to the daytime only restriction this should have little overall effect on the service for two reasons; (1) the majority of remote broadcasts originate during daylight hours, and (2) frequencies in this range are subject to severe skywave interference at night and are generally usable only when a ground wave signal of sufficient intensity to completely over-ride the interference is available. Where this condition cannot be obtained in the Medium Frequency range, operation in the High Frequency, VHF, and even UHF region is usually possible and generally more satisfactory. Frequencies are available above 25 Megacycles for broadcast pickup operation.

Some doubt was expressed in behalf of the aeronautical fixed service by ARINC as to the practicability of sharing the frequency 2848 kc. in Texas with the fixed service now operating on that frequency in California. The type of operation now being carried on in California is

such that no interference is anticipated. Existing sharing on that frequency bears this out.

Aeronautical Radio, Inc. has requested to be heard in the event their suggested changes cannot be accommodated. It is believed that the plan as revised will adequately accommodate the existing operations in the aeronautical fixed service.

The proposed list, when implemented, may require certain adjustments. Some assignments may find interference conditions such that the service will find it desirable to move to the VHF or consolidate with existing operations.

Some of the comments received in connection with "List A" presented a question concerning the "engineering basis" upon which some of the assignments were proposed. It is pointed out that to the greatest extent possible, engineering considerations do form the basis for the list. However, it must be borne in mind that in preparing the list the avenues of approach required consideration of the fact that the authorized frequency occupancy of the band already approaches saturation. "List A" is not based entirely upon theoretical engineering considerations but takes the present frequency assignment structure remaining in-band under Atlantic City and adds to it those assignments which are out of band. The retention of all present assignments in less spectrum space automatically results in more interference to all.

In some cases of excessive interference, it is contemplated that improvement may be obtained, for example, by a change in frequency assignment based upon actual operating experience or by a greater utilization of VHF wherever possible. Future problems of interference may also be minimized, for example, on the basis of more equalized transmitter power outputs among the entries in List A, more stringent frequency tolerances, more selective receivers, use of directive antennas, single sideband and, in general, a tightening up of various technical standards.

The Commission is transmitting the above mentioned list to the Department of State with the recommendation that it be appropriately considered and coordinated with other American countries.

Secretary.

On October 24, 1950, during the course of the hearing in the above-consolidated proceedings, Atlantic Gulf Gas Company, applicant at Docket No. G–887, moved that the Commission omit the intermediate decision procedure, reserving the right to file briefs; and that the Commission forthwith render the final decision herein.

All counsel, including Staff Counsel, except counsel for the railroad and labor intervenors, concurred in the waiver of the intermediate decision procedure.

The application of Atlantic Gulf at Docket No. G–887 is interrelated with the application of United Gas Pipe Line Company at Docket No. G–1263. The Commission, by order of January 10, 1951, has omitted the intermediate decision procedure at said Docket No. G–1263.

The Commission finds:

(1) It is in the public interest that the proceedings herein be considered at the same time as the proceeding at Docket No. G–1263.

(2) Due and timely execution of its functions imperatively and unavoidably requires that the intermediate decision in the proceedings herein be omitted and that the Commission forthwith render the final decision herein.

(3) It is in the public interest to grant oral argument herein as hereinafter ordered.

(4) Parties to the proceedings herein, who desire to do so, should file briefs, memoranda or proposed findings and conclusions with the Commission on or before January 22, 1951.

The Commission orders:

(A) Pursuant to § 1.30 (c) (2) of the Commission's rules of practice and procedure (18 CFR 1.30 (c) (2)), the intermediate decision herein be and the same is hereby omitted.

(B) Oral argument in the proceedings herein be had before the Commission, commencing on January 23, 1951, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

(C) All parties to these proceedings, who desire to do so, should file briefs, memoranda or proposed findings and conclusions with the Commission on or before January 22, 1951.

(D) All parties to these proceedings who desire to participate in the oral argument are required to so notify the Presiding Examiner, together with the estimated time for their argument, on or before January 19, 1951.

(E) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: January 11, 1951.

[Docket Nos. G-1012, G-1263, G-1319, G-1447]

TEXAS EASTERN TRANSMISSION CORP. ET AL.

ORDER OMITTING INTERMEDIATE DECISION PROCEDURE CONSOLIDATING PROCEEDINGS, AND FIXING DATE FOR ORAL ARGUMENT

JANUARY 10, 1951.

In the matters of Texas Eastern Transmission Corporation, Docket No. G-1012; United Gas Pipe Line Company, Docket No. G-1263; Algonquin Gas Transmission Company, Docket No. G-1319; United Gas Pipe Line Company, Docket No. G-1447.

On December 15, 1950, during the course of the hearing in the proceedings at Docket No. G-1263 and Docket No. G-1447, United Gas Pipe Line Company (United), applicant therein, moved that the Commission omit the intermediate decision procedure, waive the filing of briefs, fix a date for oral argument, and forthwith render its final decision in those proceedings, pursuant to the provisions of the Commission's rules of practice and procedure (§ 1.30 (c) (2)).

On January 8, 1951, Texas Eastern Transmission Corporation (Texas Eastern), applicant in Docket No. G-1012, filed a motion therein requesting the Commission to omit the intermediate decision procedure as permitted by § 1.30 (c) (2) of said rules of practice and procedure, waiving opportunity for presenting proposed findings and conclusions and for filing exceptions, and requesting opportunity to present oral argument on January 22, 1950, or five days after the adjournment of the hearing therein scheduled to resume on January 15, 1951.

On January 8, 1951, Algonquin Gas Transmission Company (Algonquin), applicant in Docket No. G-1319, filed a motion therein requesting the Commission to omit the intermediate decision procedure as permitted by § 1.30 (c) (2) of said rules of practice and procedure, waiving opportunity for presenting proposed findings and conclusions and for filing exceptions, and requesting opportunity to present oral argument on January 22, 1951, or five days after the adjournment the hearing therein scheduled to resume on January 15, 1951.

It appears that Mississippi River Fuel Corporation, whom United proposes to serve by means of facilities applied for in Docket No. G-1447, has contracts which expire in 1952 for a supply of gas to St. Louis, Missouri, and other markets, which contracts must be replaced by other deliveries of gas on or before March 1, 1952. It also appears that United's contract to supply Texas Eastern with natural gas permits either party to terminate said contract upon notice, unless certain conditions are met, including receipts by United and Texas Eastern of certificates of public convenience and necessity from this Commission on or before February 1, 1951. It further appears that United's contracts to supply Atlantic Gulf, its affiliate, contains similar conditions, including a March 31, 1951, deadline date.

It further appears that United has a gas purchase contract with the Pure Oil Company, covering gas reserves in the Eugene Island area off-shore Louisiana, and that Pure Oil Company holds its leases from the State of Louisiana, which leases require that production be marketed from those reserves on or before November 1, 1951. It further appears that United's contract with Pure Oil Company is conditioned upon United obtaining a certificate of public convenience and necessity on or before March 1, 1951, and taking gas from Pure Oil Company on or before November 1, 1951.

In support of its motion, Texas Eastern states that it is necessary for it to commence construction at the earliest possible date in order to make gas supplies available in the Appalachian, New Jersey and New England areas during the winter of 1951-1952; and that it has contractual commitments for the purchase and sale of gas, for the purchase of material and for financing, which require it to obtain a certificate of public convenience and necessity within specified time limits as shown by the evidence of record in Docket No. G-1012.

In support of its motion, Algonquin states that it is necessary that a certificate of public convenience and necessity issue to Algonquin at an early date in order that actual construction may proceed as early in 1951 as weather conditions may permit to afford natural gas service to New England at the earliest practicable time, and that Algonquin has contractual commitments for the purchase of gas from Texas Eastern which require it to obtain a certificate of public convenience and necessity on or before February 1, 1951.

The Commission finds:

(1) There is an immediate need for natural gas service in the areas proposed to be served by applicants in Docket Nos. G-1012, G-1319 and G-1447 at the earliest practicable date.

(2) The matters involved and the issues presented in the proceedings at Docket Nos. G-1263 and G-1447 are closely connected inasmuch as United Gas Pipe Line Company's evidence as to gas supply in Docket No. G-1263 is identical with the evidence submitted by it at Docket No. G-1447.

(3) Pursuant to § 1.30 (c) (2) of the Commission's rules of practice and procedure, due and timely execution of its functions imperatively and unavoidably requires that the intermediate decision in the proceedings at Docket Nos. G-1012, G-1263, G-1319, and G-1447 be omitted.

(4) Good cause has been shown and it is desirable in the public interest that the motion made by United Gas Pipe Line Company at Docket Nos. G-1263 and G-1447 be granted.

(5) Good cause exists and it is desirable in the public interest for the Commission, on its own motion, to omit the intermediate decision procedure at Docket Nos. G-1012 and G-1319, and to grant oral argument therein at the time and place hereinafter fixed.

(6) Any parties to the proceedings at Docket Nos. G-1012, G-1263, G-1319, and G-1447, who desire to do so, should file briefs, memoranda, or proposed findings and conclusions with the Commission on or before the time hereinafter fixed for oral argument.

(7) In view of the interrelationship shown by the evidence to exist between the applications in these proceedings, good cause exists and its is desirable and in the public interest for the Commission on its own motion to consolidate these proceedings for the purposes only of oral argument, consideration, and decision.

The Commission orders:

(A) The motion made by United Gas Pipe Line Company on December 15, 1950, in the proceedings at Docket Nos. G-1263 and G-1447 to omit the intermediate decision procedure, to waive the filing of briefs, and for the fixing of a date for oral argument be and the same hereby is granted, and the intermediate decision procedure be and the same hereby is omitted therein in accordance with the provisions of § 1.30 (c) (2) of the Commission's rules of practice and procedure.

(B) The intermediate decision procedure in the proceedings at Docket Nos. G-1012 and G-1319 be and the same is hereby omitted.

(C) The proceedings at Docket Nos. G-1012, G-1263, G-1319, and G-1447 be and the same are hereby consolidated for the purposes of argument, consideration, and decision.

(D) Oral argument be had before the Commission on January 23, 1951, at 10:00 a. m., e. s. t. in the said consolidated proceedings in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington,

D. C., and all parties to these consolidated proceedings may file briefs, memoranda, or proposed findings and conclusions with the Commission on or before January 22, 1951. Parties who desire to participate in an oral argument shall notify the Presiding Examiner on or before January 19, 1951, together with estimated time for argument.

Date of issuance: January 11, 1951.

By the Commission. Commissioner Buchanan dissenting.

GEORGE HARRIS ET AL.

MEMORANDUM OPINION AND ORDER REVOKING REGISTRATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of January A. D. 1951.

In the Matter of George Harris, Windsor Hotel, Cumberland, Maryland; Frank B. Pryor, 1517 Buchanan Street NW., Washington, D. C.; Edward E. Reed, 225 Broadway, New York, New York; Frederick J. Rose, 50 Broad Street, New York, New York; Duncan Ross, d/b/a Duncan Ross Company, 342 Madison Avenue, New York, New York; Marcus Simpson, d/b/a M. Simpson Company, Delaware Trust Building, Wilmington, Delaware.

These are proceedings pursuant to section 15 (b) of the Securities Exchange Act of 1934 ("the act") to determine whether the persons named above, each of whom is registered as a broker or dealer, or both, willfully violated section 17 (a) of the act and Rule X-17A-5 thereunder, and, if so, whether it is in the public interest to revoke their respective registrations.[1]

The proceedings were instituted by separate notices and orders for hearing dated November 3, 1950. On November 6, 1950, copies of the notices and orders were sent by registered mail to the addresses last furnished to us by the registrants. These registered articles were returned to us by the Post Office Department with notations indicating that the registrants could not be found at the addresses given. None of the registrants appeared in person or through a representative on November 27, 1950, the date set for hearings.[2]

On November 28, 1942, we promulgated Rule X-17A-5 under section 17 (a) of the act, which provides, among other things, that every registered broker or dealer must file with this Commission a report of his financial condition during each calendar year commencing with the year 1943. Promulgation of the rule was announced by publication in the FEDERAL REGISTER, by release to the press, and by distribution to persons on our mailing list.

The registrations of the registrants became effective prior to 1943, and have not been withdrawn, cancelled, revoked or suspended. Our records show that none of the registrants filed the required reports during any year from 1943 through 1949.

Upon review of the records in these proceedings we have concluded that each of the registrants violated section 17 (a) of the act and Rule X-17A-5 thereunder as a result of his failure to file such reports. We conclude also that such violations were willful within the meaning of section 15 (b).[3]

We conclude, on the basis of the foregoing, that it is necessary in the public interest to revoke the registration of each of the registrants. However, in view of the fact that our records do not show whether any of them actually received personal notice of the scheduled hearings, and to avoid any possible prejudice to them, our orders will provide that the revocation of registrations be without prejudice to a motion on the part of any registrant to reopen the proceedings and to seek, upon a proper showing, to set aside the order of revocation as to him.[4]

Accordingly, *it is ordered*, That the registrations of George Harris, Frank B. Pryor, Edward E. Reed, Frederick J. Rose, Duncan Ross, doing business as Duncan Ross Company, and Marcus Simpson, doing business as M. Simpson Company, be, and they hereby are, revoked without prejudice to a motion by any of said registrants to reopen the record in the proceeding naming him, and, upon a proper showing, to set aside the order of revocation as to him.

STANDARD POWER AND LIGHT CO., AND STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING OF APPLICATION TO WITHDRAW PENDING PLAN AND TO WITHDRAW AS A PARTY TO PENDING JOINT PLAN

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 10th day of January 1951.

In the Matter of Standard Power and Light Corporation, File No. 54-104; Standard Power and Light Corporation and Standard Gas and Electric Company, File No. 54-105.

On June 19, 1942, the Commission entered an order, pursuant to section 11 (b) (2) of the Public Utility Holding Company Act of 1935 ("act"), directing the liquidation and dissolution of Standard Power and Light Corporation ("Standard Power"), a registered holding company. In 1944 Standard Power filed a plan, pursuant to section 11 (e) of the act, proposing the company's liquidation and dissolution (File No. 54-104). That plan was conditioned upon consummation of a joint section 11 (e) plan, which was filed at the same time, by Standard Power and its subsidiary Standard Gas and Electric Company ("Standard Gas"), also a registered holding company (File No. 54-105). The joint plan proposed, inter alia, the settlement of certain inter-company claims between Standard Power and Standard Gas and the transfer by Standard Power of substantially all its assets to Standard Gas in exchange for shares of the common stock of Standard Gas to be issued by

[1] Section 15 (b) provides in part: "The Commission shall, after appropriate notice and opportunity for hearing, by order * * * revoke the registration of any broker or dealer if it finds that such * * * revocation is in the public interest and that (1) such broker or dealer * * * (D) has willfully violated any provision * * * of this title, or of any rule or regulation thereunder."

[2] Our orders and notices instituting these proceedings provided that the same be published in the FEDERAL REGISTER not later than 15 days prior to November 27, 1950. Pursuant to this provision the orders and notices were published in the FEDERAL REGISTER of November 10, 1950. 15 F. R. 7652-55.

Standard Gas pursuant to a plan of recapitalization filed by that company under section 11 (e) of the act. The joint plan was by its terms conditioned upon consummation of the plan of recapitalization of Standard Gas. Although the Commission approved all these plans, the Standard Gas plan was never consummated due to changed conditions. On July 7, 1950, the Commission granted the request of Standard Gas to withdraw its plan of recapitalization and to withdraw as a party to the joint plan. See Holding Company Act Release No. 9960.

Notice is hereby given that Standard Power has filed with the Commission an application in which it requests (a) that it be permitted to withdraw as a party to the aforesaid joint plan; (b) that it be permitted to withdraw its plan for liquidation and dissolution; and (c) that the Commission terminate and dismiss all proceedings before it involving the aforesaid joint plan and the plan for liquidation and dissolution of Standard Power and vacate its order entered February 22, 1945, approving this latter plan.

Standard Power states that it seeks the foregoing relief because the aforesaid joint plan and its own plan for liquidation and dissolution were contingent upon consummation of the recapitalization plan of Standard Gas which has now been withdrawn, and because the records created in the proceedings in connection with said plans are stale and inappropriate as bases for further action by the Commission.

Standard Power expressly agrees that the withdrawal of its plan of liquidation and dissolution and its withdrawal as a party to the joint plan shall not terminate or in any way limit any jurisdiction conferred upon the Commission by law over fees and expenses to be paid in connection with the liquidation and termination of the existence of Standard Power, including the aforesaid plans and any and all transactions relating thereto, and that Standard Power will pay only such of the fees and expenses which are subject to the jurisdiction of the Commission, as aforesaid, as shall be approved, awarded, allowed or allocated by the Commission.

Notice is further given that any interested person may, not later than February 2, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matters stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 2, 1951, said application as filed, or as amended, may be granted, subject, however, to the reservation of jurisdiction by the Commission over all fees and expenses paid or to be paid by Standard Power in connection with the aforesaid plans and any and all transactions related thereto.

By the Commission.

Notice is hereby given that a joint application-declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by The United Gas Improvement Company ("UGI"), a registered holding company, and its subsidiary, Allentown-Bethlehem Gas Company ("Allentown"). Applicants-declarants have designated sections 6 (b), 9 and 10 of the act and rules U-42 and 43 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January 23, 1951, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Allentown proposes to issue and sell 30,000 shares at par of its common capital stock (par value $50 per share) to UGI in payment of (1) Allentown's 4 percent promissory note in the principal amount of $600,000, maturing January 31, 1951, payable to UGI and (2) advances on open book account by UGI to Allentown, to the extent of $900,000. In order that Allentown may have available sufficient authorized common capital stock, it proposes to increase its authorized common capital stock from 120,000 shares to 200,000 shares, and proceedings to this end are now in progress.

The application-declaration states that the Pennsylvania Public Utility Commission has jurisdiction over the proposed issue and sale of Allentown of 30,000 shares of its common capital stock and that the order of that Commission when issued will be supplied by amendment to the instant application-declaration.

By the Commission.

Notice is hereby given that London Terrace, Inc. (Company) has filed an application pursuant to section 304 (c) (2) of the Trust Indenture Act of 1939 (act) for an order exempting from the provisions of sections 305 to 307 inclusive, and sections 310 to 318 inclusive of the act a proposed supplemental indenture to the indenture dated April 1, 1937, between the Company and Empire Trust Company, the trustee. The Company was organized under the laws of the State of New York, as part of a plan of reorganization under section 77B of the Federal Bankruptcy Act, of a predecessor corporation named "23-24 Corporation". The principal asset of the Company consists of four apartment house buildings located in Manhattan, New York City. The Company offered $5,500,000 in principal amount of First and General Mortgage Bonds, due June 1, 1952, pursuant to an indenture dated April 1, 1937, between the Company, a wholly owned subsidiary of the Company which was dissolved on December 14, 1946 and the Empire Trust Company as trustee. The principal amount of bonds presently outstanding pursuant to the indenture is $4,262,500, which are in the hands of 2,196 holders.

The Company proposes to refinance the presently outstanding bond issue, and toward this end has obtained commitments for the borrowing of $3,500,000 from Aetna Life Insurance Company upon the security of a 15 year 4 percent First Mortgage and for bank loans, on an unsecured basis, in the aggregate sum of $550,000 for a term of 27 months, bearing interest at the rate of 5 percent per annum payable monthly. With the proceeds of the aforementioned loans and its general funds, the Company proposes to call for redemption on or before June 1, 1951 all of its presently outstanding bonded indebtedness.

In order to facilitate the redemption of its presently outstanding bonded indebtedness the Company proposes to amend its indenture of April 1, 1937, to provide that:

1. The Company may call all of its outstanding bonds for redemption at

any time and not only on June 1 of each year as provided in the present indenture.

2. Notice of the call for redemption shall be given not less than 15 days prior to the date fixed for redemption rather than 30 days as presently provided.

3. The funds required for payment of the redemption price of the bonds are to be deposited with the trustee at least 2 days before the date fixed for redemption instead of at least 30 days prior thereto as presently required by the indenture.

4. The call for redemption may, by resolution of the Board of Directors, be rescinded at any time prior to the deposit of the redemption price with the trustee.

5. The above proposed amendments to the indenture (paragraphs 1 to 4 inclusive) are to be effective only if the bonds are called for redemption on or before June 1, 1951. If the call for redemption is not made on or before that date, the above proposed amendments are not to be effective thereafter and the indenture is to continue in full force and in effect as if unamended.

In order to effectuate the proposed program of redemption and the amendment of the indenture, the Company must have the approval, pursuant to the terms of the indenture, of 75 percent of the outstanding principal amount of bonds, and, pursuant to the provisions of the laws of the State of New York, the consent of 66⅔ percent of the outstanding shares of common stock of the Company. The Company proposes to solicit the necessary consents.

The purpose of the instant application is to secure an exemption from the above enumerated sections of the act for the proposed supplemental indenture effecting the indicated amendments to the present indenture for the stated limited purpose.

For a more detailed statement of the matters of fact and law asserted, all interested persons are referred to said application, which is on file in the offices of the Commission at 425 Second Street NW., Washington 25, D. C.

The Division of Corporation Finance has advised the Commission that upon a preliminary examination of the application it deems the following issues to be raised thereby, without prejudice to the specification of additional issues upon further examination:

1. Whether the aforesaid allegations contained in the application are true;

2. Whether, in the event the allegations of the Company are true, compliance with the provisions of sections 305 to 307 inclusive and 310 to 318 inclusive of the act would impose an undue burden on the Company, having due regard to the public interest and the interests of investors.

It appearing to the Commission that a public hearing upon said application is necessary and appropriate;

It is ordered, Pursuant to sections 304 (c) (2) and 320 of said act, that a public hearing on the aforesaid application be held on January 29, 1951, at 10 a. m., eastern standard time, in Room 101 of the Offices of the Commission, 425 Second Street NW., Washington 25, D. C.

Notice of such hearing is hereby given to the Company, and to any other person or persons whose participation in such proceedings may be of public interest. Any person desiring to be heard or otherwise wishing to participate in such proceedings should file with the Secretary of the Commission, on or before January 26, 1951, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.
